☆ **Saint-Paul**

Admire (from the outside only) the 12th-century church. Saint-Paul also boasts an old abbey (today a private estate) originally founded by the royal crown and which survived particularly tumultuous periods during the 13th and 15th centuries before its destruction during the French Revolution. In the village, you can also discover the Hostellerie des Dames dating from 1433. Saint-Paul was also a cradle of earthenware production; from 1807 to 1849, the old royal abbey housed the first factory of the Beauvaisis to manufacture stanniferous ceramic tiles in the northern style.

☆ **Finish** Parc Saint-Paul amusement park
